

# Cisco WebEx Web Conferencing

**Communicate More Quickly and Efficiently.  
Collaborate with customers, partners and  
colleagues around the world at any time.**

Cisco WebEx™ Web Conferencing liberates your workforce from the time and geographical constraints that can limit your ability to get together in person. Collaborate with customers, partners and colleagues around the world at any time using web conferencing.

## Save Time and Improve Productivity

WebEx Web Conferencing can help you save travel time and expenses, improve productivity and get more work done in a shorter time. If you have a telephone and an Internet connection, you can hold an online meeting – right from your desktop, right now.

Use WebEx Web Conferencing as often as you like – and simply pay for what you use.

## Why Cisco WebEx Web Conferencing?

- > Access all the advanced features of web conferencing including presentation, application and desktop sharing, remote control, video, chat, recording and more.
- > Leverage fully integrated audio conferencing from PGI.
- > Enjoy unlimited web conferencing with per-participant, per-minute pricing that allows you to meet as often as you want, for as long as you need.
- > Simplify by getting one bill, and having one customer support number for both audio and web conferencing.

## Key Features

**Share Documents, Applications or Desktops.** Share and control documents, applications and desktops remotely in real time without uploading files to a server. Collaborate on content as you view, annotate and enlarge documents or graphics.

**Record, Edit and Playback Meetings.** Record meetings and applications for future reference, training or demonstrations.

# Web Meetings

**Rich Media Experience.** Engage your audience by incorporating multi-media into your presentations: PowerPoint®, Flash® animations and audio and video.

**Flexible Scheduling.** Plan ahead or start an instant meeting. Invite participants on the fly from within a live web conference.

**Easy File Transfer.** Upload files of any size for distribution to participants during a web conference.

*Simplify Your Web Meetings. Integrate PGI's Audio Conferencing.*

## ReadyConference® Plus

Experience the cost-effective, easy-to-use solution that delivers the features you need most – for up to 125 participants calling in from the U.S. and Canada.

## GlobalMeet®

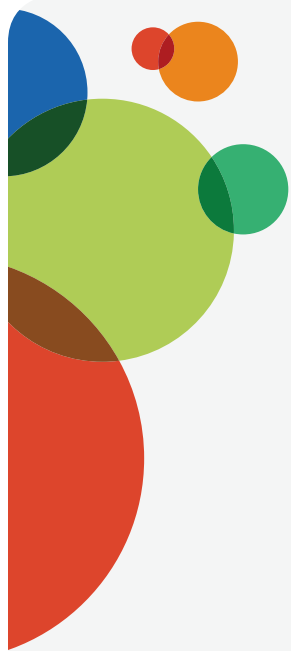

Expand your international access with GlobalMeet. You get the same innovative meeting management features as with ReadyConference Plus, along with local and international toll-free access in major markets throughout the world.

## Integrated Audio Conferencing Benefits

- > Synchronized web and voice recordings
- > The ability to mute all participants with one command
- > Security features (lock call, optional extra security codes)
- > Custom conference greetings recorded by you
- > 24/7 Live Assistance – simply press \*0 on your phone for both web and audio support

## Benefits of using WebEx Web Conferencing

- > **Reliability.** All online meetings are hosted on a distributed, private, redundant network
- > **Less Travel.** Save time and money by meeting online and avoid the hassles of business travel.
- > **Increased Productivity.** Meet more frequently with customers, colleagues and business partners and increase your business output in less time.
- > **Real-Time Collaboration.** Share, collaborate and discuss projects in real time – make critical decisions quickly, with all of the stakeholders, regardless of where they are located.
